Summary

Cyber Security Consultant with 2.5+ years of experience in Security Operations (SOC), EDR/XDR/MDR, threat hunting, incident response, endpoint forensics, and the Microsoft Security ecosystem. Currently supporting Microsoft Defender Experts for Endpoint (DEX-E), delivering enterprise-scale threat detection, security investigations, and incident response.

Technical Skills

Security Operations : SOC, Threat Detection, Threat Hunting, Incident Response, Alert Triage, MITRE ATT&CK
Microsoft Security : Microsoft Defender XDR, MDE, MDO, MDI, MDCA, Advanced Hunting, AutoIR, KQL, Antivirus
SIEM & SOAR : Microsoft Sentinel, Splunk, Analytics Rules, SOAR, Logic Apps, Playbooks, Attack Simulations
Cloud Security : Microsoft Azure, Entra ID, Azure Monitor Agent, Log Analytics Workspace, Data Collection Rules
Detection & Telemetry: Sysmon, Syslog, Windows Event Logs, Event Correlation, IOC Analysis, Threat Intelligence

Professional Experience

Cyber Security Consultant — Microsoft Threat Expert

2024 – Present

LTIMindtree Limited (LTM) — Client: Microsoft

- Triaged and investigated 10,000+ endpoint incidents, escalating 500+ high-severity incidents.
- Built and executed KQL threat-hunting queries, collaborating with Microsoft experts to improve detection coverage.
- Performed endpoint forensics and Windows event log analysis aligned to MITRE ATT&CK techniques.
- Authored hypothesis-driven investigation reports (FDENs) for complex and escalated security incidents.
- Conducted quality audits and Level-2 reviews of analyst investigations to ensure technical accuracy and standards.
- Performed trap grading and quality assessments, providing actionable feedback to improve analyst performance.
- Leveraged Microsoft XDR ecosystem, Advanced Hunting, AutoIR, and threat intelligence during incident triage.

Personal Project

Enterprise Security Operations Center (SOC) on Microsoft Azure

[View Project](#)

- Enterprise-grade Microsoft Security Operations Center (SOC) built on Microsoft Sentinel, demonstrating detection strategy, SOC optimization, automation, threat hunting, and incident response aligned with real-time production security operations.

- Built and operationalized an enterprise-grade Azure SOC using Microsoft Sentinel, integrating multi-source Windows/Linux telemetry, Microsoft Defender XDR, and custom log ingestion for centralized security monitoring.
- Engineered MITRE ATT&CK-aligned detection engineering workflows using KQL, Scheduled/NRT Analytics Rules, Summary Rules, Entity Mapping, Suppression & Exclusion Rules to improve detection fidelity and reduce alert fatigue.
- Implemented SOC infrastructure including Azure Logic Apps SOAR automation, Advanced RBAC, Network Security & Firewalling, Azure Monitor Agent (AMA), Data Collection Rules (DCR), and Log Analytics Workspace.
- Executed adversary simulations and threat hunting to validate detections, perform forensic investigations, and optimize incident response through continuous detection tuning and operational improvements.

Awards & Certifications

Awards: Hi-Five Spot Award 2025 • Super Crew Spot Award 2026

Awarded by LTIMindtree (LTM) for exceptional performance and technical excellence.

Certifications: Microsoft Certified: Security Operations Analyst Associate (SC-200) • Palo Alto Certified Cybersecurity Practitioner (PCCP) • TryHackMe SOC Level 1

Education

Bachelor of Technology (B.Tech)

Vishwakarma Institute of Technology (VIT), Pune

2023

CGPA: 8.95
